Ocean Shore Railroad car 1409 Restoration Progress Report

2005

Reviewing year one of Railcar #1409s Restoration…

This month marks the one year arrival of our famous Ocean Shore Passenger Car # 1409. My, time fly's when you're having fun.

All our volunteers have helped so diligently through this last season showing great results. Our car has been disassembled to the point of reconstruction. Detailed drawings of the existing areas have been submitted along with complete material lists. This next Saturday, November 12th we will start welding replacement steel to the main platform.

Grant writers are ready to submit packages for review. Local groups have taken interest along with Terra Nova High Schools advanced woodshop students. Many fundraising activities; flea markets, garage sales, t-shirts, posters, a limited edition gold and silver coin, and donations have raised us over $5,000 !!!

This Project has sparked interest with almost every one that crosses its path. Local Political figures have expressed support along with local businesses. Pacifica City Council will be recognizing our group with a proclamation on Nov. 14th at the City Chambers.

For information on how you can help contact me via email and don't forget to join our YAHOO GROUP. I also would like to express my gratitude towards all the individuals involved in making this project a success.

Thank You!!!

Scott Lindner

Project Director
